

Fitness Tracker application BRD

Task	Task Description	Status
Run Playwright tests	Execute automated testing via webapp-testing skill	Tested (Green)
Root cause analysis	Analyze issues using systematic-debugging skill	Tested (Green)
Component review	Review shadcn-ui components	Tested (Green)
Competitor research	Research Hevy, Strong, NTC	Tested (Green)
Create audit report	Compile findings into a comprehensive report	Tested (Green)
Project setup	Vite + React + Convex + Tailwind base setup	Tested (Green)
Design system	Implement shadcn/ui and Radix UI components	Tested (Green)
Page layouts	Develop 6 core page layouts (UI only)	Tested (Green)
Convex schema	Design deterministic database schema	Tested (Green)
Live Deployment	Deploy frontend to Vercel and backend to Convex Cloud	Tested (Green)
HomePage Convex Sync	Fetch dynamic schedule, 'today's workout', and add skeletons	Tested (Green)
WorkoutSummary Sync	Fetch workout with exercises, display muscle group data	Tested (Green)
ActiveWorkout Sync	Log sets dynamically, finish workout mutation	Tested (Green)
ProgressPage Sync	Fetch user stats, PRs, and weekly activity	Tested (Green)
Set Completion Logging	Manage state for sets, check off boxes to log	Tested (Green)
PR Trophy display	Show PR icon on new personal record	Complete (Dark Green)
Rest Timer	Countdown timer with sound notification	Complete (Dark Green)
Effort Rating Modal	Easy/Ideal/Max options integrated with logSet	Complete (Dark Green)
Workout Timer	Elapsed time counter starting on mount	Tested (Green)
Finish Workout Confirmation	Show dialog summary before ending workout	Tested (Green)

Exercise Detail Navigation	Navigate to instructions via info icons	Tested (Green)
Exercise Swap Flow	Search, filter, and swap exercises mid-workout	Tested (Green)
Custom Exercise Creation	Modal to add user-defined exercises to DB	Tested (Green)
Exercise History Tracking	Display past performance and charts in Detail view	Tested (Green)
Real Progress Stats	Show actual streak and PR count from database	Tested (Green)
Workout History View	Calendar or list of past workouts	Incomplete (Grey)
Muscle Breakdown	Display real data for muscle group focus	Incomplete (Grey)
Loading Skeletons	Shimmer effects across all data-fetching pages	In progress (Orange)
Error Boundary/Toasts	Global error handling and success notifications	Incomplete (Grey)
PR Celebration Animation	Confetti effect for personal records	Incomplete (Grey)
Unit Tests	Code-level tests for hooks and components	Incomplete (Grey)
E2E Tests	Automated UI scenario tests	Complete (Dark Green)
Manual QA Verification	Cross-referencing live build features in staging/prod	Tested (Green)
